

PT PORTABLE TENSILE

The PT Portable Tensile Tester is built for convenience and accuracy, making it easy to test anything from wire and strip steel to bolts and spot welds. It has a rugged, cast iron, exterior with a standard capacity of up to an eighth inch thick and six inches long. Also, the PT can be modified to meet your specifications should you require a larger capacity. Simply indicate your size requirements when ordering. For Tensile tests that are portable and dependable, consider the PT Portable Tensile Tester for your shop.
